PROFESSIONAL SUMMARY

As a fresher, I am eager to begin my journey in the IT field and build my skills through practical experience. I have worked on academic and personal projects that helped me understand web technologies and problem-solving. I am passionate about technology and willing to learn and adapt to new challenges.

EDUCATIONS

Sri Venkateswara College of Engineering Tirupati <i>Bachelor of Technology in Electronics and Communication Engineering</i>	2022-08-01 - 2026-05-01 CGPA : 7.2
Narayana Junior College Kurnool <i>Intermediate (MPC)</i> Marks: 713/1000	2020-06-01 - 2022-05-01 CGPA : 71.3%
Sree Narayana High School Bethamcherla <i>Secondary School Education</i> Marks: 583/600	2020-06-01 - 2020-05-01 CGPA : 97%

PROJECTS

Cloud-Integrated Deep Learning System for Real-Time Road Hazard Detection

Geo-Spatial Data Collection and Mapping

- Collected and organized real-world road hazard data (such as potholes, debris, and damaged roads) and accurately mapped hazard locations using GPS coordinates in Google My Maps to support model training.
- Collaborated with the development team by maintaining high-quality, consistent datasets, enabling reliable deep learning model training, cloud integration, and dashboard visualization.

Technologies / Tools Used : Google My Maps, GPS Data Collection, Cloud Storage

HR_Employee_analytics | Github

Individual project

- Developed an **HR Employee Analytics** database using **MySQL** to manage and analyze employee records efficiently.
- Wrote optimized SQL queries using **JOINS, GROUP BY, aggregate functions, and subqueries** to generate business insights.
- Performed analysis on **salary trends, attendance, attrition, and department-wise performance** to support data-driven decision-making.
- Designed a structured database with sample datasets and reusable SQL scripts, demonstrating strong database management and analytical skills.

Technologies / Tools Used : Oracle SQL, MySQL

ChatGPT Clone

Individual project

- Designed a static ChatGPT-style web interface** using **HTML5** and **CSS3**.
- Focused on clean UI design and proper webpage structure to simulate a conversational interface.

Technologies / Tools Used : HTML5, CSS3

Flipkart Homepage Clone

Individual project

- Designed a static Flipkart homepage clone** using **HTML5** and **CSS3**.
- Designed navigation bar, product sections, and applied responsive styling for improving user experience across devices.

Technologies / Tools Used : HTML5, CSS3

SKILLS

Databases :	SQL
Programming Languages :	Python
Soft Skills :	Decision Making, Collaboration, Adaptability, Critical Thinking, Problem Solving
Tools & Platforms :	Git, GitHub, VS Code
FrameWork :	Django

CERTIFICATIONS

Python Course for Beginners:Mastering the Essentials

2025

scalar

Covered Python fundamentals, OOP concepts, file handling, and algorithmic problem-solving techniques.
